Step 2 – Overview of policy/function being assessed:

Outline: What is the purpose of this policy? (Specify aims and objectives)
<p>Charnwood Borough Council recognises the value and contribution of individuals, voluntary sector organisations and other community-led projects and the benefits they provide to the residents of Charnwood.</p> <p>Through our Charnwood grant schemes we provide a range of grants including Strategic Partner grants to help organisations, groups and individuals access the funding support they need.</p> <p>Strategic Partners are those organisations are those organisations who contribute significantly to delivering key services that meet the Council's corporate objectives.</p> <p>It is the Councils aim to ensure the grants process is inclusive of all community groups and funding supports projects targeting individuals across a range of protected characteristics, as outlined in the Equality Act 2010.</p>
What specific group/s is the policy designed to affect/impact and what is the intended change or outcome for them?
<p>It is the Councils aim to ensure that the grants process is inclusive of all community groups and funding supports projects targeting individuals/ residents across a range of protected characteristics, as outlined in the Equality Act 2010.</p> <p>Analysis is therefore undertaken to ensure that the grant are distributed in a reasonable and proportionate manner.</p>
Which groups have been consulted as part of the creation or review of the policy?
<p>Evaluation takes place on successful Strategic Partner applications to analyse whether there any gaps with regards to the protected characteristics in order to ensure the grants process is fair and equal to all. In particular analysis is undertaken to determine any barriers which may prevent specific community groups/ communities of interest accessing provision.</p>

Step 3 – What we already know and where there are gaps

List any existing information/data do you have/monitor about different diverse groups in relation to this policy? Such as in relation to age, disability, gender reassignment, marriage and civil partnership, pregnancy & maternity, race, religion or belief, sex, sexual orientation etc.

Data/information such as:

- Consultation
- Previous Equality Impact Assessments
- Demographic information
- Anecdotal and other evidence

Analysis of Strategic Partner applications and monitoring and evaluation data and information

What does this information / data tell you about diverse groups? If you do not hold or have access to any data/information on diverse groups, what do you need to begin collating / monitoring? (Please list)

The information tells us that the voluntary sector organisations supported provide a range of services that acknowledge individuals from protected characteristics.

It is acknowledged that some of the voluntary sector organisations support individuals with multiple characteristics and those projects supporting the wider community have a wide range of beneficiaries.

Where possible equalities information is provided as part of the monitoring data from voluntary sector organisations that are awarded a grant by the Council. There are a number of organisations that specifically cover age, disability, race, religion, sex.

Step 4 – Do we need to seek the views of others? If so, who?

In light of the answers you have given in Step 2, do you need to consult with specific groups to identify needs / issues? If not please explain why.

However, at this stage of analysis it is felt the information currently held is sufficient to analysis trends and determine any barriers or negative impacts.

Step 5 – Assessing the impact

In light of any data/consultation/information and your own knowledge and awareness, please identify whether the policy has a positive or negative impact on the individuals or community groups (including what barriers these individuals or groups may face) who identify with any 'protected characteristics' and provide an explanation for your decision (please refer to the general duties on the front page).
