In order to meet this obligation, the Council may, at its absolute discretion, restrict, re-site, re-size or alter the layout of the market.

SEVERE WEATHER POLICY

Severe Weather Policy

Aim

The decision to close or curtail a market can cause a lot of disruption with the potential for financial and logistical impacts for all concerned and therefore is never taken lightly.

However, our key priority is always to protect the public, traders and staff safety in the event of any severe weather which would affect any open air market or event operated by Charnwood Borough Council.

This policy should apply in the following circumstances

a) a severe weather warning is in force and has been issued by the Met Office

Or

b) in the opinion of the Markets, Fair and Town Centre Operations Manager (MFTCOM) there is a risk to public safety due to adverse weather conditions

This is an operational plan focussed solely on markets and events.

An extreme weather event may also constitute as being a “Major Emergency” which would mean the Council’s separate major incident, flood or mass evacuation plans may need to be activated.

Objectives

The objectives are

1. To comply with the Council’s duties and obligations to its staff, traders and members of the public under the Health and Safety at Work Act 1974
2. To comply with the Council’s common law duties under the Occupiers Liability Act 1984
3. To comply with the Council’s insurers.
4. To ensure any decision to close or curtail a market is taken fairly, consistently and transparently and is communicated to all parties as soon as a decision is made.
5. In order to help the MFTCOM make informed and effective decisions a weather diary will be kept to build up insight of the conditions that can seriously disrupt a market or event.

Roles and Responsibilities

Role	Responsibility
Head of Leisure and Culture (HLC)	Reviews and approves this policy as required ensuring emergency contact numbers and weather risk table are all up to date. See Appendix 1 and 3. When the policy is activated they will work with CCTV operators to act as a Silver Controller If the HLC is not available the Strategic Director for Neighbourhoods and Community Wellbeing will act in their absence. Discretion to waive or reduce fees.
Markets, Fairs and Town Centre Operations Manager (MFTCOM)	Makes the decision to implement this policy. If the MFTCOM is not available the Markets Officer (MO) will be responsible for making the decision. When the policy is activated they will work with CCTV operators to act as a Bronze Controller. Discretion to waive or reduce fees. Carries out a review of the decision to cancel a market/event post cancellation.
Markets Officer (MO)	Makes the decision to activate the policy in the absence of the MFTCOM.
Markets and Fairs Operations Team Leader (MFOTL)	Stay on site at all times until the infrastructure is taken down or the weather warning is downgraded.
Staff	Any staff that are deployed to help when the policy is activated are to follow instructions and not place themselves in any personal danger.
Health and Safety Officer	Advises on the policy and during any live situations.
Communications Team	Provides effective and timely public communications during any live situations.
Street Management Team	Generally assist, particularly if traffic needs to be moved outside of any traffic orders that are in place.
Waste and Recycling Team	Remove any waste especially if the normal arrangements need to be changed

Activating the policy

A severe weather warning in itself may not be considered a reason to cancel or curtail the market/event. The management team will actively seek advance weather warnings from the Met Office, Leicestershire County Council and third party forecasting services.

In making a decision whether the market/event can go ahead in a reduced capacity or cancelled completely the MFTCOM or the Markets Officer (MO), in their absence shall use their judgement and experience together with the following

- Predicted and/or current weather conditions
- Weather and risk table – see Appendix 1
- Availability of staff
- Economic factors

- Insight – weather diary and previous occurrences

There are 2 key factors to be taken into account as follows

1. The infrastructure e.g. stalls/gazebos etc. can be erected safely and remain safe throughout the duration of the market/event.
2. That there is sufficient manpower readily available at all times throughout the market/event to dismantle any infrastructure should the weather deteriorate whilst the market/event is taking place.

The market stalls have been designed to allow for rapid dismantling. The stall once dismantled will be laid down on the market floor and zip tied to secure covers.

A minimum of 6 trained staff are needed to erect and dismantle infrastructure in severe weather conditions – See Appendix 2 for procedure. Market staff job descriptions include call out in the case of bad weather.

The MFOS must remain on site at all times until the infrastructure is taken down or the weather warning is downgraded.

The staff will be allocated into 2 teams by the MFTCOM and allocated a specific location to work in. Areas at highest risk to the public will be prioritised.

If the above cannot be guaranteed, consideration needs to be given to cancel the market completely.

If the market/event can still go ahead but at a reduced level priority will be given to those traders who sell perishable goods e.g. butchers/bakery/grocers etc. and those who are prepared to trade from un-sheeted stalls.

The MFTCOM will endeavour to make a decision as early as possible to cancel the market/event in full or part before any infrastructure is erected, this must be made no later than 4pm on the day before the market/event.

The HLC must be kept informed as to any decisions made.

Once a decision has been made Traders will be immediately advised through a variety of methods including but not exclusive

- Social Media e.g. Facebook and Twitter
- Charnwood website
- Recorded message on Market Phone
- Text
- Email
- Local Radio

In the case of cancellation the Regular Trader will be given a credit.

In the case of reduced market the Regular Trader will be offered the opportunity to stand at a discounted price. Non attendance will receive full credit.

In the case of reduced market and if the circumstances allow, the MFTCOM has the discretion to allow trading from the Traders vehicles. If this is the case, the MFTCOM will advise relevant departments and partner organisations.

Dismantling stalls/gazebos in high winds procedure

1. Call the emergency telephone numbers to secure the necessary manpower to dismantle the infrastructure.
2. Call the Police to make them aware of the difficulties and to request assistance if appropriate.
3. Assign teams to work on the most affected/high priority areas of the market. The team will consist of 2 lifters and 1 spotter.
4. Use barrier tape to define the working areas for the teams who are dismantling the infrastructure.
5. Bring the trailers to the work areas to minimise lifting and carrying.
6. Market stalls should be dropped, laid flat on top of stall boards and left in situ until they can be put away safely. Stalls should only be put onto trailers if the following conditions are met
 - ✓ the immediate vicinity is clear of members of the public e.g. the area surrounding the stall that is to be moved
 - ✓ Spotter confirms that no public are in the immediate vicinity
 - ✓ the trailer is moved as close as possible to the stall which is being manoeuvred
 - ✓ 2 people are needed to lift the stall and they must both be confident they can do so safely
 - ✓ the MFTCOM or most senior person in charge has verified that all conditions have been satisfied and gives permission to proceed

LOUGHBOROUGH RETAIL MARKETS

WASTE RECYCLING PROCEDURE

It is important that the following procedure with regard to the handling of Market waste is strictly adhered to.

All Traders are required to carry out the following procedures to ensure that Loughborough Retail Markets continue to work towards a Green Market.

Fruit & Vegetable traders

Traders are required to implement the following practices on their pitches with regards to the management and removal of trader generated waste.

Wheelie bins (only brown in colour) will be located at your pitches and will be used to contain fruit and vegetable waste only. They will be removed at the end of the day by Serco staff engaged on market duties.

Cardboard boxes must be separated and emptied of all contents and kept as clean as possible and placed in a neat pile for removal by Serco staff employed on the Market Site. Likewise, all plastic receptacles and wrappers must be completely emptied and secured in a purple coloured recycling bag (provided by market staff) which can accompany the cardboard.

Wooden crates must be completely emptied and separated and placed in a tidy pile ready to be removed by Serco staff engaged on market duties.

Thin black plastic mushroom boxes can also be recycled but they must also be completely emptied. They can accompany any cardboard waste.

IMPORTANT NOTICE

The following items are not recyclable and CANNOT be disposed of through the market waste disposal system and must always be removed by the trader.

- large black meshed plastic containers (cabbage containers)
- small blue meshed plastic trays (mushroom boxes)
- onion netting
- all polystyrene containers and liners

It is vital that the recyclable material does not become contaminated and this is why it is very important that care is taken in the separation of the various components. Please do not allow any vegetable or fruit matter to contaminate the cardboard or plastic containers and make absolutely sure that they are empty before removal.

Plants & Flower traders

Plastic plant pots or pot trays cannot be recycled through the market waste disposal systems and it is the responsibility of the trader to remove these from the Market Site. Any vegetation or plant matter must also be removed by the trader and their respective pitch areas swept clean prior to leaving the market at the end of the day's trading.

Confectionery traders

The waste generated on these types of goods is mainly cardboard and packaging. The cardboard and plastic wrappers are all recyclable. All items must be separated from any other contaminant.

Plastic wrappers should be secured in purple recycling bags (provided by market staff). The onus is upon the individual trader to remove the waste from the Market Site to the Market Yard. A collection service can be arranged by Serco staff engaged on Market cleansing duties for which a supplementary refuse charge will be added to the traders' daily pitch rent.

All other waste e.g. damaged confectionery, other food stuffs, and non-re-cyclable material must be removed from the Market Site by the trader.

Ladies/ Men's Fashion traders

Coat hangers are not recyclable and must be removed from the Market Site by the individual trader. Clear plastic garment covers are re-cyclable and can be contained in a purple recycling bag (provided by market staff).

Magazine/Book Sellers

Any unwanted books/magazines are re-cyclable and should either be removed by the trader or disposed of through the market waste disposal system. If the latter is chosen then they must be placed in a purple recycling bag (provided by market staff).

Street Vendors

Traders operating street catering units may dispose of any clean cardboard and cardboard drinks containers through the market waste disposal system. All general waste such as food waste, old cooking oil, soiled serviettes, plastic cutlery and anything polystyrene must be removed from the Market Site by the individual trader.

All other traders

Any trader that generates re-cyclable material of any kind e.g. cardboard, plastic, wood etc. must ensure that each re-cyclable component is separated and. Cardboard boxes should be completely emptied and any plastic and paper placed in a purple re-cycling bag (provided by market staff) and taken to the Market Yard.

IMPORTANT NOTICE

It is imperative that traders ensure that all re-cyclable items remain free of contamination.

Polystyrene of any kind is not re-cyclable

Please support recycling on Loughborough Markets.

General note

Traders should dispose of any personal waste e.g. coffee/soup cups, empty crisp packets etc in the street waste bins provided by Charnwood Borough Council. Please refrain from depositing this litter on the floor.

The Loughborough Market Regulations already contain enforceable rules as to how traders are required to deal with waste generated by their businesses.

Market Regulation 55 states

In order to keep the refuse and/or litter around a traders' pitch to a minimum, traders shall make full and proper use of the waste disposal facilities at regular intervals throughout the day during the market. They shall follow the waste recycling procedures that are in place on the market as contained in **Appendix 3**.

Traders are responsible for ensuring that they take all necessary steps to adhere to the procedures. If refuse and/or litter are left on a pitch at the end of a market day, the trader who occupied that pitch may be given a Penalty Notice.
