## Disability and Health

Physical Disabilities	Gender, Age and Race Related Issues	Statistics	Charnwood E.m. England		
			Charnwood	E.m.	England
<p>People with a limiting long term illness</p>	<p>Very few (3%) of disabled people are born with a disability. In the UK 18% of people have a disability: of which 4% of males and 5% of females have a serious disability.</p> <p>The prevalence of disability increases rapidly with age: 73% of men and 75% of women aged 85+ have a disability.</p>	<p>People with a limiting long term illness</p> <ul style="list-style-type: none"> <li>Approximately 25,900 people in Charnwood could have a disability, long term illness or health problem. Of these, it is estimated that 2,100 residents aged 85+ could be affected in this way.</li> </ul>	15.00%	18.41%	17.93%

Mobility Difficulties	Gender, Age and Race Related Issues	Statistics for Charnwood
<p>In 2001 8% of adults in the UK reported having mobility difficulties i.e. unable to walk without assistance, this was the same proportion as in 1993 and 1996, and 1% said they had a temporary difficulty with mobility owing to an accident or illness.</p> <p>Overall the most common causes of disability are diseases affecting musculoskeletal systems such as arthritis and strokes.</p>	<p>Amongst men and women 4% aged 16-64 reported having mobility difficulties. Overall, women were more likely than men to report having a difficulty with mobility (9% compared with 7%).</p> <p>As expected, difficulties with mobility increase with age. The greatest difference was among the very elderly; 52% of men aged 85 and over reported having mobility difficulties compared with 68% of women in the same age group.</p> <p>(It should be noted that this does not include people living in institutions as the sample used focused on private households. The true figure will therefore be higher amongst those aged 75 and over).</p> <p>For both sexes, the most commonly reported type of disability is movement problems (10% of men and 12% of women with a disability).</p> <p>It is estimated that there are approximately 1.2 million* wheelchair users in the UK.</p>	<p>It is estimated that of adults resident in Charnwood approximately: 9,600 adults will have a mobility difficulty</p> <p>4,050 people aged 16-64 will have a mobility difficulty</p> <p>1,700 people aged 85+ will have a mobility difficulty</p> <p>3,000* people will be wheel chair users</p> <p>(*Please note: This figure has been extrapolated from national information. The lower incidence of wheelchair use amongst young people and the 'higher than average proportion of young people in the Charnwood population indicates that the resulting estimate will not be accurate; this has been corroborated by anecdotal evidence.</p>

Hearing Impairment	Gender, Age and Race Related Issues	Statistics for Charnwood
<p>In the UK:</p> <p>There are an estimated 8,945,000 million deaf and hard of hearing people. Of these there are:</p> <p style="padding-left: 40px;">2,474,000 aged 16 to 60 6,471,000 aged over 60</p> <p>There are 8,257,000 people with mild to moderate deafness. Of these there are:</p> <p style="padding-left: 40px;">2,366,000 aged 16 to 60 5,891,000 aged over 60</p> <p>There are 688,000 people with severe to profound deafness. Of these there are:</p> <p style="padding-left: 40px;">108,000 aged 16 to 60 580,000 aged over 60</p> <p>There are an estimated 50,000 British Sign Language users in the UK.</p> <p>There are 23,000 deafblind people in the UK</p>	<p>Hearing Loss in Older Age Groups</p> <p>These are the percentages of those over the age of 50 and over the age of 70 who have various degrees of hearing loss. In the UK:</p> <p style="padding-left: 40px;">over 50 41.7% will have some kind of hearing loss 21.6% will have mild hearing loss 16.8% will have moderate hearing loss 2.7% will have severe hearing loss 0.6% will have profound hearing loss</p> <p style="padding-left: 40px;">of over 70 71.1% will have some kind of hearing loss 26.7% will have mild hearing loss 36.8% will have moderate hearing loss 6.3% will have severe hearing loss 1.3 will have profound hearing loss</p>	<p>In Charnwood it is estimated that there will be approximately 21,675 adults who are deaf or hard of hearing. Of these there will be approximately:</p> <ul style="list-style-type: none"> <li>• 19,940 adults with a mild to moderate hearing loss</li> <li>• 1,735 with a severe to profound hearing loss</li> <li>• 125 BSL users</li> <li>• 60 deafblind people</li> </ul> <p>Of the over 70's it is estimated that just over 11,630 people will have some kind of hearing loss</p>

Sight impairment	Gender, Age and Race Related Issues	Statistics for Charnwood
<p>There are approximately two million people in the UK with sight impairment.</p> <p>Of these two million people, approximately one million are registered or eligible to be registered as severely sight impaired or sight impaired.</p> <p>A person is considered to have sight impairment if even when wearing glasses they are still unable to recognize someone across the road or have difficulty reading newsprint.</p>	<p>In the UK there are approximately</p> <ul style="list-style-type: none"> <li>• 170,000 people who use a white cane</li> <li>• 5,000 people who use guide dogs</li> </ul> <p>Over half of all severely sight impaired or sight impaired people are living below the poverty line.</p> <p>More than 90% of severely sight impaired or sight impaired people do not receive all the benefits they are entitled to.</p> <p>75% of sight impaired people of working age are unemployed – largely due to discrimination.</p>	<p>In Charnwood there will be approximately:</p> <ul style="list-style-type: none"> <li>• 5,100 people with a sight impairment</li> <li>• 30 people who are able to read Braille.</li> <li>• 430 people who use a white cane</li> <li>• 12 people who use guide dogs</li> </ul>

Health	Charnwood	England Average	England Worst
Obese Children	9.3	9.6	16.2
Obese Adults	24.9	23.6	31.2

Early deaths from cancer	94.5	115.5	164.3
Drug Misuse	5.8	9.8	27.5

Mental Health Disorders	Gender, Age and Race Related Issues	Statistics for Charnwood
<p>1 in 4 people will experience some kind of mental health problem in the course of a year and 1 in 6 experiences this at any given time.</p>	<p>Women are more likely to be treated for a mental health disorder than men: 20 per cent of women and 14 per cent of men in England have some form of mental illness.</p> <p>Rates of mental health problems are thought to be higher in minority ethnic groups than in the white population but they are less likely to have their mental health problem detected by a GP.</p>	<p>Approximately 30,100 adults in Charnwood will experience a mental health problem in the course of a year and 20,000 at any one time</p>
<p><b>Anxiety and Depression</b></p>	<p>The most common mental disorder in the UK, almost 9% of the population meet the criteria for diagnosis.</p> <p>1 in 10 people are likely to have a 'disabling anxiety disorder' at some stage in their life.</p> <p>Gender</p> <ul style="list-style-type: none"> <li>• Depression is more common in women with between 20-25% of females with diagnosable depression compared with 7-12% of men.</li> <li>• Women are twice as likely as men to experience anxiety.</li> </ul> <p>Age</p> <ul style="list-style-type: none"> <li>• Depression is most common in people aged 25-44 years.</li> <li>• Depression affects 1 in 5 elderly people living in the community and 2 in 5 living in care homes.</li> </ul>	<p>This equates to approximately 13,800 people in Charnwood</p>
<p><b>Obsessive Compulsive Disorder</b></p>	<p>This affects 1-2% of the population.</p>	<p>This equates to 1,534 – 3,069 Charnwood residents</p>
<p><b>Bipolar Disorder - Manic Depression</b></p>	<p>This affects 1-2% of the population.</p>	<p>This means that in Charnwood, 1,534 – 3,069 people could have this condition</p> <p>This means that in Charnwood there could</p>

<b>Anorexia and Bulimia</b>	<p>It is estimated that 1.6 million people in the UK have an eating disorder; 9 out of 10 are female.</p> <p>.</p>	<p>be approximately 3,680 females and 410 males with an eating disorder</p>
<b>Schizophrenia</b>	<p>1% of people will develop this condition in their life time.</p> <ul style="list-style-type: none"> <li>• There is a higher rate of diagnosing the condition in the Afro-Caribbean community in the UK. However, it is not clear whether this reflects a higher incidence of schizophrenia or the misinterpretation of behaviour by psychiatrists from a different culture.</li> <li>• Men are more likely to develop schizophrenia between the ages of 15-35 with a peak of risk in their 20s. Women are also most at risk in their 20s but , while the risk in their 20s is not as great as that for men, the incidence of risk does not reduce as much after their 20s and hence in older age groups the incidence is higher amongst women.</li> </ul>	<p>This means that in Charnwood approximately 1,534 people could have this condition</p>
<b>Dementia e.g. Alzheimer's Disease</b>	<p>Most prevalent in older age groups, this condition affects 5% of people aged over 65 years and 20% of over 80s.</p>	<p>This equates to 1,150 of the 22,900 Charnwood residents aged over 65 and 1,170 of the 5,850 residents aged 80+</p>
<b>Adult Learning Disabilities</b>	<p>It is difficult to determine exactly how many people have learning disabilities in the UK. It is thought that there are between:</p> <ul style="list-style-type: none"> <li>• 230,000 and 350,000 people with severe learning disabilities.</li> <li>• 580,000 and 1,750,000 with milder learning disabilities.</li> </ul> <p>More males than females have severe learning disabilities.</p>	<p>This equates to approximately 590 - 900 people in Charnwood</p> <p>This equates to approximately 1,485 – 4,475 people in Charnwood</p>
<p>1.5 million people in the UK have a learning disability.</p> <p>200 babies are born with a learning disability every week.</p> <p>9 out of 10 people with a learning disability get bullied.</p>		

<p>There are more than 29,000 people with a severe or profound learning disability who live at home with carers aged over 70.</p>	<p>Mild learning disabilities are more common among males and people whose families have financial difficulties.</p> <p>30% of people with a learning disability have epilepsy. 50% of people with a severe learning disability have epilepsy</p> <p>Autism is not a learning disability, but people with autism often have a learning disability. About 91 in every 10,000 people in the UK have autism.</p>	
---	---	--

Literacy Difficulties	Gender, Age and Race Related Issues	Statistics for Charnwood
<p>7 million people in England, roughly one in five adults have low literacy skills i.e. they have a reading ability of that expected in an 11 year old.</p> <p>The Centre for Longitudinal Studies (CLS) has divided the overall 19% with weak literacy skills into two categories: about 6% of the adult working population are judged to have "very low" literacy skills; and a further 13% to have "low" literacy skills.</p>	<p>Those with "very low" skills are likely to have great difficulty with any reading, struggling to read the simplest and shortest texts, though they may be able to cope with simple signs and advertisements, especially when these are illustrated.</p> <p>Adults defined as having "low" literacy skills may be able to read a short article from a tabloid newspaper and pick out favourite programmes from a TV guide, but may read slowly with little understanding.</p>	<p>It is estimated that about 24,000 adults resident in Charnwood will have weak literacy skills.</p>

## Race, Nationality and Ethnicity
