Dear Mr Mattu,

I would like to confirm that for some years I have maintained your 5 acre pasture and the 16 acres of woodland.

I regularly visit the site, sometimes 2-3 times a week in the summer and once or twice in the winter.

As you know I access your property through your double wooden gates using the intercom to communicate with the house. This allows me free access to enter without requiring your family to come to open and close the gates.

In addition access to the pasture and woodland through these gates, avoids me having to drive near your home, as I know you have young children

The small lights are useful in the winter months if I work beyond 4pm, particularly when I am manoeuvring heavy machinery.

The locked gates limit casual access which is important when I am using chainsaws, trailers, mowers, shredders etc.

I hope this adequately explains my role.

Yours sincerely,

Mervyn Greenhalgh
