Main Modifications	No	No

WHY MAIN MODIFICATION NOT SOUND	MAP CHANGE COMMENTS
<ul style="list-style-type: none">• The main issues raised by Barrow upon Soar Parish Council, centred around traffic issues have not been addressed by the modifications to the local draft plan. Our concerns regarding the extra pressure on the traffic pinch points at junctions which will inevitably arise from the housing allocated to Barrow upon Soar have not been addressed.• The exit and egress of the village to the major road networks need improving in order to make the new housing developments sustainable.• The Parish Council is deeply concerned about pedestrian safety as walking routes from the new housing developments to the village schools and village centre are not fit for purpose.• The Parish Council notes that the modifications will increase housing numbers from the original draft plan, which will exacerbate all the issues previously highlighted.• Barrow upon Soar only meets the minimum criteria as a service centre.
